Fair-Play Scoreboards

The Fair-Play Advantage:

Outdoor:

- High-contrast amber LEDs with dimming feature provides visibility in all conditions
- Wide viewing angle provides viewing from virtually any location on the field
- Caption conversion kits let you easily change sports and scoreboard titles
- Neoprene gaskets and polyurethane coating protects each digit from moisture
- UV-resistant paint available to protect against the elements
- Free color coordinating trim tape

Indoor:

- Super-bright, long-lasting LEDs provide consistent color with no “hot-spots”
- Three color (amber, red and green) LEDs protected by acrylic light-diffuser
- Free volleyball and wrestling captions with basketball scoreboards
- Standard horn with every indoor basketball scoreboard
- Double bonus arrows standard (excluding 1500 series)
- Free color coordinating trim tape

Traditional Scoreboard

← **Bright Durable LEDs**
High contrast digits insure optimal viewing and require virtually no maintenance.

↑ **Wide Viewing Angle**
Wide angle LEDs allow spectator viewing from virtually any location.

↑ **Unbeatable Protection**
Neoprene gaskets and polyurethane coating protects against outdoor moisture and corrosion. Acrylic cover and conformal coating protect indoor components.

by TRANS LUX

TL Vision Video Display & Scoreboard Combination

Add an optional TL Vision video display for the ultimate fan experience. Showcase live game footage, video replay, player stats, sponsor messages, animation and so much more. Each video display/scoreboard combination is backed by Fair-Play's experience and proven track record of high quality and durability.

Full-Color Matrix Scoreboard

A full-color matrix scoreboard is ideal for facilities that entertain multiple sports. They provide added flexibility and dynamic control of game stats, team logos, sponsor messages, graphics, and animations. Available in both indoor or outdoor configurations.

Basketball Scoreboards 1500 – 3600 Series

Fair-Play Basketball Scoreboards deliver all the game information they need with player statistics panels and timeouts left. Player statistics panels for five or six players show which players are on the court, their total points and fouls. You can even customize the cabinets with standard colors at no extra charge. For added versatility, these units are also designed for multi-sport use with a simple change of captions. Fair-Play Basketball Scoreboards are always a win-win for the home team.

Hockey Scoreboards 1600-1800 Series

Fair-Play Hockey Scoreboards deliver all game information fans need to follow fast paced action on the ice. The units employ three LED digit colors (red, amber and green) to clearly differentiate and organize time, score and player information with extreme clarity from any seat in the house. And they're available in a wide selection of models that you can custom configure with electronic team names, a shots on goal display, player penalty times, and sponsorship and team logo panels. This modular design allows you to choose the features that are most important.

Swimming Scoreboard Series

Fair-Play Swimming Scoreboard solutions provide all the functionality and system components you need. Each scoreboard can specify number of lanes, time and swimmer placement based on your requirements. The Swimstart timing system includes a portable public address system, 360-degree strobe, tone start signals, and recall tone plus a rugged storage case. Swimstart can be used by itself or interfaced with various International Sports Timing systems.

SWIMSTART From International Sports Timing (IST)

A swim timing system is not complete without a SWIMSTART electronic start system. An integral part of any scoreboard package, it can be used by itself or interface it with IST's timing systems.

Software

IST swimming software packages are designed with you in mind. Whatever specific scoring and timing demands you have, IST has a package that will meet your needs.

MEETWARE® software turns your PC into a fully integrated timing, meet and team management system.

TIMEWARE® turns your PC into a timing console. Create your own event lists and time

and place events with one or more heats. Timeware is compatible with existing starts and touchpads.

WORKWARE® manages your workout data with ease and sends that data to your scoreboard with interval counters along with times.

POLOWARE® Software turns your PC into a water polo game console. Displays game, shot

Indoor Accessories

Fair-Play offers a complete line of indoor scoreboard accessories. From shot timers and game clocks to locker room clocks and possession indicators, Fair-Play has it all. Shot timers are available in one- or three-sided models, and can include an integrated game clock. Fair-Play locker room clocks keep players, coaches and officials aware of the time leading up to tip-off or coming out of an intermission. LED goal lights plug directly into shot timers for accurate timing, and are visual indicators for the end of the period, shot-clock sequence and last-second shots. Possession indicators mounted on the scorer's table, show which team has the next possession. Fair-Play models come in 6- and 10-inch digits.

Fair-Play Full-Matrix Scoreboards offer great flexibility and dynamic control of your sporting event. They are ideal for facilities that entertain multiple sports, with the ability to display detailed information during every event. Tailor the look for football, baseball, basketball, wrestling or whatever sport you choose - indoors or outdoors. You can even incorporate advertising, team logos, sponsor messages, text, graphics and animations. Matrix scoreboards are the ideal solution to engage your fans.

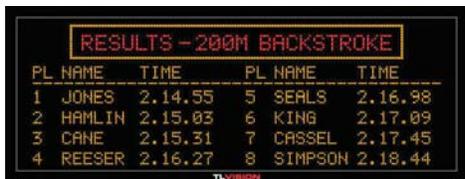

Color & Monochrome Matrix Scoreboards

A matrix display solution is a versatile platform for can display simple text messages and animations to a full-color, video display that shows live video and instant replays. They're also a good source of revenue generation through advertising and sponsorships.

Controllers

Our scoreboard controllers allow you to control Fair-Play indoor and outdoor scoreboards remotely, with or without hard-wiring. Easily update scores, statistics and time as needed. Use for single or multiple scoreboards based on your requirements. A simple two-line LCD display shows time and data instantly.

For added piece of mind, our wireless controllers are backed by Fair-Play's 100% guarantee. If for any reason your wireless operation doesn't function properly, Fair-Play will supply all the required parts for hard-wired operation at no cost.

FAIR-PLAY by TRANSLUX

Controller Options

Direct-wired controls run cabling conduit under the field or court to your scoreboard. Trenching under new or established fields is required to install a direct connection.

Battery-powered models provide flexibility. You can use these controls both indoors and outdoors in areas with limited electrical connections. Battery-powered models typically run for approximately six hours on a single charge.

Wireless controls are versatile and secure. They are a great option for scoring on established playing fields where trenching is undesirable and can also be used indoors. Our spread spectrum, frequency-hopping technology eliminates radio interference and increases operating range.

These controllers provide basic scoring and control delay of game field timers, game clocks, segment and track timers for a variety of sports. Users can easily switch between different modes.

Marquees

Fair-Play marquees employ LED modules that are energy efficient and virtually maintenance free. Here's your opportunity to communicate with students, faculty, parents and the community on a daily basis. Announce game times, hours of operation, special notices, recognize student or faculty achievements, promote community events and advertise fundraisers – all with a simple to use interface. A Fair-Play marquee is a smart purchase you can count on for years to come.
